Description

2008 MERIDIAN 341 FLY BRIDGE:

Optionally equipped with 2 Cummins QSB 5.9 380 HP inline shaft engines.

Star Fly of American design, it offers pretty finishes bringing a luxury usually intended for large units. (comparable to Pearl, sunseeker, Princess)

The quality of its navigation equipment and joystick for maneuvers at the port will allow you to drive serenely and reassuringly in any situation. (Thruster front and rear)

These powerful engines will allow you to sail at cruising speed at just 2,300 rpm without the engines getting tired or strained. And this under any conditions.

Low draft for a tree line, will reassure you during your future maneuvers anchorages on the coast..

Owner hyper meticulous both in terms of the overall maintenance of mechanical and electronic elements and aesthetics in general.

It is a real pleasure!

This boat also has all the original user manuals and all the history from its purchase invoice to the last maintenance.
