## Description

---

The Riva Ariston is considered by Carlo Riva to be his most elegant boat and is the only model built during his entire management of the shipyard. 1012 units were produced. With this model you enter the full period of the "Dolce Vita", harmonious and captivating lines. "Ariston" from the Greek "the best, the most excellent". Its beautiful smooth curves at the bow that elegantly taper towards the narrow and low transom, all decorated with a very shiny and uninterrupted classic mahogany decking, make it one of the most instantly recognizable and beautiful motorboats of all time. The standard Ariston remained in production until 1971 and the Super until 1974. By this time, over 1,000 boats had been built.

Complete refit was carried out between 2019 and 2020: the bottom was redone, the sides were recovered, new deck, new upholstery and new chrome, engine brought back to zero hours from a specialized construction site on Riva, located on Lake Maggiore. No work to do, really perfect boat.

Hull number approx.: 335.
