sunseeker Portofino 53

300 000 € ALL TAX INCLUDED

Description

The Sunseeker Portofino 53 is one of the most successful models of the English shipyard: timeless lines, solid construction and a perfect balance between sportiness, comfort and reliability. This 2006 unit is in very interesting technical and structural conditions, thanks to constant maintenance and targeted interventions over the years.

The hull was brought to zero in 2020, with preventive anti-osmosis treatment, a fundamental plus that protects the value of the boat and guarantees long-term peace of mind. Overhauled engines and generator, a key element for those looking for a ready-to-use boat, without post-purchase surprises. Also in 2020, the teak in the cockpit was redone, leather interiors were redone, LED lights and a new wine cellar was redone, the engine axle bushings were also replaced. On deck, the Portofino 53 offers a functional and well-thought-out layout: large cockpit with table, well-separated relaxation areas, complete awnings to enjoy the outdoors in all conditions and a hydraulic gangway that simplifies manoeuvres on the quay. There is also a thruster at the stern, a detail that is not taken for granted on boats in this category and which makes the difference in maneuvers. The on-board equipment is complete: air conditioning, stereo system, TV and Simrad navigation instrumentation with autopilot, GPS/plotter, echo sounder, VHF and radar. A boat designed to sail safely, with comfort and with a setting that is decidedly higher than the average of the second-hand market.

An ideal solution for those looking for a classy, reliable, ready open with concrete technical content.
