cranchi 43 atlantique

229 000 € ALL TAX INCLUDED

Description

CAP MED BOAT & YACHT CONSULTING presents this 2009 Cranchi Atlantique 43, an elegant and comfortable flybridge motor yacht designed to offer generous living spaces, enjoyable cruising and a strong equipment package.

This model stands out for her flybridge, sociable exterior spaces and Volvo Penta D6-435D-A engines paired with Volvo IPS propulsion and joystick control. The twin engines deliver approximately 870 hp in total and show around 700 hours. The engine service has been completed, while the IPS system received a major upgrade in 2022 with rebuild and latest-standard parts, representing approximately €25,000 in invoices. Around 350 hours have been completed since this intervention.

Autonomy and onboard comfort are enhanced by a Fischer Panda 4.5 kW diesel generator showing approximately 320 hours, a 3500 W inverter, 400 W solar panels to be confirmed, two additional sealed 180 Ah service batteries, reverse-cycle air conditioning and Webasto diesel heating. The generator also benefited from significant work less than one year ago, including piston, valves and valve seats rebuilt.

On board, this Cranchi Atlantique 43 offers a very attractive level of comfort with wine cellar, washing machine, marine toilets with sea discharge or 160 L black water tank, as well as 300 L of fresh water capacity split between two connected 150 L tanks. Navigation and maneuvering are supported by the autopilot connected to the Raymarine system, Raymarine VHF, Inmarsat antenna, Volvo joystick and two electric mooring winches.
