## Description

---

Designed by architect Sam Manuard and built in a glass/epoxy sandwich (one-off), Angela is a unique racing-cruising sailboat, lighter and more efficient than a classic Pogo 10.50.

With only 2,900 kg in lightweight, a lifting keel and a powerful sail plan, Angela offers an excellent power-to-weight ratio while remaining habitable and comfortable for blue water cruising.

Lighter, stiffer, this unique prototype offers exceptional sensations of glide and speed while guaranteeing comfort and interior volume worthy of large boats.

Angela is ideal for lovers of day trips, fast long cruising, ocean racing who love light sailboats that move quickly and distil a lot of pleasure.
