Description

Cervetti 44 "Du Du" (2024) – Freedom Has a New Dimension

Imagine waking up in the morning, surrounded only by deep blue, with the sun rising on the horizon and the gentle breath of the sea as your only sound. You are not simply on board a boat; You're in your own private penthouse, suspended over the water.

The Cervetti 44 "Du Du" completely redefines the cruising catamaran experience. Signed by the prestigious Skyron Studio, this 2024 model is the perfect synthesis between the boldness of modern lines and the warmth of a luxury home.

An open space without boundaries

Forget about narrow and oppressive boats. Get on board and let yourself be surprised by the fluidity of the spaces: the large sliding windows break down all barriers, merging the internal saloon and the L-shaped galley with the external cockpit. A single, immense bright environment designed for conviviality, to welcome friends or to enjoy the most exclusive sunsets in total relaxation.

And when you are looking for a different perspective, get on the Flybridge: a real panoramic terrace where navigation becomes pure emotion and control of the boat becomes a solitary or shared pleasure. Technology, Independence and Comfort "Without Compromise"

The "Du Du" has been configured for those who do not want to give up anything. It is a totally autonomous boat, designed to make you forget the mainland and the crowded ports:

Air-conditioned comfort: Air conditioning in every room and power generator, to guarantee you the coolness and silence you deserve in
