Description

Jeanneau NC 37 (2019) – Comfort, innovation and driving pleasure at the highest level

This well-maintained Jeanneau NC 37 built in 2019 combines the advantages of a modern sports cruiser yacht with the living comfort of a floating apartment.

The hull concept developed by Michael Peters ensures excellent sailing characteristics, a high level of safety and relaxed cruising on coastal waters and inland waters.

The NC 37 impresses with its stepless deck layout, the spacious saloon and the perfect connection between indoor and outdoor areas.

Particularly noteworthy is the convenient joystick control, which makes port manoeuvres child's play, even in confined spaces. This system is complemented by the Dockmate remote control, which will be retrofitted in 2024 and allows the yacht to be manoeuvred precisely and safely directly from the cockpit or side deck – a significant added value for single-handed drivers and small crews.

The yacht was also comprehensively upgraded visually and technically in 2024:

Highlights & Special Equipment:

- * Volvo Penta drive with joystick control
- * Dockmate wireless remote control (2024)**
- * New Raymarine chartplotter (2024)**
- * New plastic teak deck (2024)**
- * New cockpit tonneau cover (2024)**
- * Spacious saloon with panoramic glazing
