Description

XBOAT ref :6342.Svag & Co is a 2024 Windelo 54 in the Yachting version, perfectly embodying the brand's DNA: eco-responsible, offering the pleasure of sailing on a modern, high-performance, and well-balanced catamaran.

Since its launch, it has remained in the Mediterranean, with wintering ashore. The layout features a full owner's hull to port with a master cabin, office, dressing room, and a large private bathroom, while the starboard hull accommodates two comfortable double cabins with a separate WC and shower cabin. The nacelle space integrates Windelo's signature forward cockpit, a large U-shaped galley, a sunbathing area/quarter berth, and a dining space that can seat up to 10 people.

Svag & Co has always received special attention from its owners in terms of maintenance. It also benefits from a particularly coherent energy system: flexible solar panels, a 400 W wind turbine, and an overall energy management designed for long stays at anchor while minimizing environmental impact.

Very well equipped, it offers all the comfort one would expect: air conditioning, heating, watermaker, solar panels, wind turbine, and state-of-the-art multiplexing system refurbished in 2026.

Today, driven by a new sailing project aboard a larger Windelo, its owners are emotionally seeking a new family ready to continue the story of this Windelo 54, designed for those who love sailing as much as fully living every moment at sea. More details and pictures on xboat.uk
