## Description

---

NEO ONE: Elegance Meets Innovation in the World of Water Taxis

Designed by Neomarine, the new NEO ONE represents an absolute game-changer in the nautical passenger transport sector. Certified in CE Category C for 12 passengers, this 9.20-meter taxi boat combines the elegant lines of a luxury vessel with the most advanced marine technologies.

The Real Revolution? The Hidden Outboard Motor.

The NEO ONE is powered by a high-performance Mercury F200 outboard motor, cleverly concealed beneath an elegant aft hatch equipped with gas struts. This engineering solution offers the unparalleled advantages of an outboard—drastically reduced maintenance costs and downtime, zero vibration transmission to the hull, a shallow draft (0.30 - 0.75m), and exceptional maneuverability—without sacrificing the clean, refined aesthetics typical of high-end water taxis.

Perfect for the Lagoon and Beyond.

Developed to strictly comply with navigation regulations and wake limits in Venice, the NEO ONE features a complete deckhouse with doors and windows, solid teak interiors, optional heating, and a standard bow thruster for millimeter-perfect mooring.

Premium Equipment on the Ready-to-Deliver Model

In addition to the extensive standard equipment on board, which includes the bow thruster among other features, the vessel currently available for immediate delivery is equipped with the following upgrades:

Electric actuator for the aft hatch opening

Premium upholstery

Underwater side hull lights

Freshwater tank with pressurized pump system and aft shower

Mooring kit

Two-tone metallic paintwork

Factory antifouling treatment: two coats of epoxy primer + two coats of black antifouling

Choosing the NEO ONE means investing in a vessel that guarantees operational continuity, superior comfort, and an image of absolute prestige.

Pricing and Versions

Available in the following versions (engine included):

ONE Taxi: from €208,000

ONE Tender: from €188,000
