Description

This 2025 Delta Powerboats 48 Coupé is a near-new, fully carbon fibre sports cruiser presenting in exceptional condition with only 50 engine hours since delivery. Hand-built in Sweden and developed through the long-standing Delta Powerboats / Mannerfelt Design partnership, the Delta 48 Coupé is one of the most advanced carbon fibre motor yachts in the 48 foot class, combining a lightweight high-performance composite hull with a level of efficiency rarely seen in this segment. Because the entire structure is built from carbon fibre rather than conventional GRP, the 48 Coupé is significantly lighter, stiffer and more fuel efficient than comparable cruisers of its size, delivering remarkable top-end speed and effortless cruising performance while burning a fraction of the fuel — a true low-consumption, high-performance day boat and weekender capable of long Mediterranean passages on twin 440hp engines. Powered by twin Volvo Penta D6-DPI 440 sterndrives with Volvo Penta Joystick, Autopilot and DPS, Steer-By-Wire autopilot, an additional aft deck joystick, Volvo Penta keyless start-stop, electronic shift and throttle, bow thruster and Zipwake automated interceptors, this Delta 48 offers exceptional close-quarters control and dynamic running trim, while the carbon hull and efficient hydrodynamics keep fuel burn exceptionally low across the entire rev range. The vessel carries 2,000 litres of fuel, 400 litres of freshwater and a 140 litre holding tank, giving genuine offshore range for a boat of this performance. Comfort and seakeeping are elevated by a Seakeeper 6 gyroscopic stabiliser, ensuring a remarkably stable platform at anchor and underway, while the Fischer Panda 15000i 12kW generator supports full air conditioning in the sleep cabins and saloon for year-round Riviera use. Onboard electrical architecture is built around a Mastervolt 24V system with CZone digital switching, twin MLI Ultra 24/6000 230Ah lithium service batteries, a Mastervolt Mass Combi Pro 3,500W charger/inverter, AGM starter batteries, shore power and galvanic isolator, supported further by a 120W solar panel. Navigation and electronics are comprehensive and fully Garmin, including two Garmin GPSMAP 9219 4K displays with charts, Garmin Radar Radome Fantom 24, Garmin Vesper Cortex VI VHF with SOTDMA SmartAIS, Garmin depth and sea temperature transducer, search light, LED navigation lights, horn, windscreen wipers, windshield washer system and Sentinel connected boat remote services. On deck, the 48 Coupé features Flexiteek decking throughout, an aft deck convertible sofa-sunbed, aft teak table with cover, seat bench with storage, a generous bow lounge with sunbed, bow storage and anchor box, a Bimini top over the aft deck with carbon fibre awning posts, electric soft-top roof, freshwater shower at the swim platform, retractable swimladder, full mooring pack with six fenders and mooring lines, Seasmart flush cleats, stainless flagpole, work lights and the standout Opacmare transom gangway together with the H+B Technics hydraulic tender lift platform and bow windlass with remote. Below deck the Delta 48 Coupé accommodates six guests across three cabins with comfort mattresses throughout, the owner enjoying a forward master stateroom with en suite bathroom, Duravit Starck1 basins, Vola fittings and Jabsco silent flush electrical toilets. The galley is finished to a high specification with Corian countertop, stainless steel sinks, two-burner gas stove and gas oven, Miele induction hob, Miele combi micro oven, Isotherm 85 litre stainless refrigerator and Iittala Teema tableware. Entertainment includes a JL audio system with Bluetooth streaming, tuner and loudspeakers upgraded with JL Multi-Zone audio, a saloon TV with concealed lift, master cabin TV and underwater transom lights. Sliding aft and side doors blur the

boundary between the enclosed panoramic saloon and the exterior decks, while the electric roof allows the 48 to adapt instantly to changing weather, making it equally suited to open-air cruising and all-season comfort. Safety equipment is extensive and includes a liferaft, lifejackets for eight persons, flares, automatic engine room fire extinguishing system, manual cabin extinguishers and electrical and manual bilge pumps. Antifouled and maintained to the highest standard, lying in the South of France, this 2025 Delta Powerboats 48 Coupé in carbon fibre represents a rare opportunity to acquire a virtually new, ultra-low-hours, fully optioned high-performance Scandinavian sports yacht combining genuine offshore capability, class-leading fuel efficiency and exceptional build quality. Offered by All Yacht Monaco. Viewing by appointment on the French Riviera.
