## Description

---

The Delta 48 Adventure embodies two decades of visionary Swedish engineering, combining rugged versatility with uncompromising performance and advanced marine technology. This new carbon fiber expedition yacht showcases Delta Powerboats' craftsmanship, delivering a distinctive motor yacht designed to push the boundaries of year-round cruising and the most demanding offshore adventures.

Built using a rigid, vacuum-infused carbon fiber composite laminate, the Delta 48 Adventure stands out with its deep gunwales, heavy-duty racks, and reinforced railings, engineered for crew safety and confidence in any conditions – cold-climate expeditions, active watersports, deep-sea fishing, or long-range cruising. Its three-cabin layout, spacious pilothouse, and reverse-angled four-part windshield ensure excellent visibility and protected, year-round comfort, while a modular deck system allows the layout to be tailored to each owner's ambitions, from storage solutions and equipment racks to working-deck configurations or sun loungers. Powered by an inboard Volvo Penta D6-DPI diesel configuration, every element – from the rugged construction to the panoramic glazing and precision mechanical systems – reflects an uncompromising commitment to quality and craftsmanship that upholds Delta's reputation for excellence. This Delta 48 Adventure is now open for orders, with first deliveries scheduled for Q1 2027, through ALL YACHT MC, distributor of Delta Powerboats across France and Monaco.
