Description

Bow to the Wind Huracàn 5.7 Worldground with Honda 100 HP VTEC – Used in excellent conditions, fresh water only

If you are looking for a reliable, high-performance and ready-to-use boat, this Bow to the Wind 5.7 Worldground is an ideal solution for those who want to experience the lake or the sea with maximum comfort and safety.

Description

Offered for sale in excellent general condition, this Bow to the Wind 5.7 Worldground has been used exclusively on Lake Garda, always in fresh water, an aspect that contributes significantly to the preservation of the hull, components and engine.

The boat has never remained permanently moored in port: after each use it has always been winged, washed, dry-cleaned and kept indoors, preserving gelcoat, finishes and systems from wear and tear and atmospheric agents. The aesthetic and mechanical conditions testify to an extremely accurate management by the sole owner.

Engine: Honda 100 CV VTEC

The strong point of this boat is undoubtedly the Honda 100 hp VTEC engine, installed new a few years ago to replace the previous 40 hp.

With less than 78 hours of operation, accrued exclusively in fresh water and with regular maintenance, this engine is known for:

Reliability and durability.

Smooth, brilliant dispensing thanks to VTEC technology.

Low consumption compared to the performance offered.

Quiet and comfortable sailing.

Reduced running costs and simplified maintenance.

The upgrade to 100 hp allows the boat to best express its dynamic qualities, offering acceleration, safety and pleasant sailing even when fully loaded.

For those with special license or use needs, it is also possible to downgrade and bring the configuration back to 40 hp, without any particular criticalities.

General Status

The boat has always been maintained with the utmost care and is in excellent condition:

Use in fresh water only.

I always have indoor and dry storage after each outing.

Components working and well preserved.

Hull and finishes in excellent condition.

Constant and documentable maintenance.

Delivery and warranties

The sale is carried out with a 12-month legal guarantee of conformity by the shipyard, offering the buyer an important added value in terms of safety and peace of mind.

The boat will be delivered:

With all the documentation in order.

With perfectly functioning systems and equipment.

Checked and ready to be used immediately.

Why choose this Bow to the Wind 5.7 Worldground

Used only on Lake Garda and always in fresh water.

Never left in the water continuously: dry and indoor storage.

Reliable Honda 100 HP VTEC engine, brilliant in consumption and performance.

Upgrade from the previous 40 hp performed with professional installation.

Possibility of reconfiguration to 40 hp.

Single owner and careful maintenance.

Delivery with 12 months of compliance and full documentation.

This Bow to the Wind 5.7 Worldground represents a rare opportunity for those who want to buy a used boat in excellent condition, with a modern and efficient engine, always treated with obsessive care and ready to give many seasons of carefree sailing. An ideal solution for Lake Garda, Italian lakes and coastal outings, thanks to the perfect balance between performance, reliability and low operating costs.
