Description

The main deck has a 360° view of the sea thanks to the large side windows and the glass roof which, combined with the fully retractable glass door leading to the saloon, guarantee visual continuity between indoor and outdoor environments.

The helm station on the starboard side, on the port side there is a large "L" shaped sofa that embraces a table that can be expanded to accommodate up to 8 diners, in front of it we find the cabinet with retractable TV. The possibility of raising and lowering the table transforms the dinette into a dining area or coffee break.

On the lower deck there is the open galley, illuminated by the light coming in abundance from the windshield above and the skylight in the ceiling; The spaces are intelligently distributed with the aim of obtaining more storage and inserting a full-height fridge.

There are three cabins: a full beam owner's cabin amidships, completely redesigned: positioned longitudinally, it is illuminated by the new rectangular portholes with steel frames and a cozy atmosphere.

The VIP is positioned at the extreme bow and offers freedom of movement on the three sides of the double bed. The guest suite on the starboard side has two twin beds. All cabins have their own bathroom, with separate shower. The guest cabin bathroom doubles as a day toilet.

At the stern there is the crew quarters, forward of the engine room and with direct access from the sofa to the cockpit. A good size, it consists of a single cabin with its own bathroom and separate shower.

The heights of all areas on deck and below deck exceed 2 meters.

Navigation equipment:

AIS, Rudder angle indicator, Radar Antenna, Electronic engine control, On-Board Computer, Chain counter, Display, DSC vhf, Joystick, Plotter with GPS antenna, Co-pilot seat, Dynamic positioning system.
