Description

This magnificent Dufour 525 Grand Large stands out for its exceptional self-sufficiency and impeccable maintenance. Unlike other models on the market, all critical systems (engine, sails, power, electronics) have recently been refitted or serviced. All that remains is to cast off the lines.

KEY FEATURES

Total Energy Independence (No Generator Needed): 1,200W of solar panels (700W on a gantry + 500W flexible panels) paired with a wind generator and a recent Gel battery bank (2023). Combined with a Dessalator watermaker (60L/h), you can enjoy complete independence while at anchor.

Mechanical Peace of Mind: 75hp Volvo engine (1,925 hours) that has undergone a complete refit (new injectors, heat exchangers, and up-to-date major servicing). Optimized marine electrical system featuring new Victron/Cristec charger and splitter (installed Sept 2025).

Easy Short-Handed Handling: Bamar electric genoa furler, 3 electric winches (for halyards and sheets), and a Max Power bow thruster for stress-free docking. **Serviced Elvstrom Sail Inventory:** Full-batten mainsail, genoa, and staysail (2020)—all fully serviced in March 2026. A 180m² asymmetric spinnaker with a sock completes the set.

"Home-Like" Comfort: Dometic air conditioning and forced-air heating, Kenwood washing machine, dishwasher, fully equipped galley, and recent upholstery (2020). **Premium Tender:** Highfield 2.90m RIB (2024) on davits, powered by a Yamaha 8hp 4-stroke outboard.

An exceptionally well-maintained owner's yacht, cared for by enthusiasts. Its technical setup makes it one of the best opportunities currently available for immediate long-distance cruising or comfortable live-aboard life in the sun.
