Description

CAP MED BOAT & YACHT CONSULTING presents this Fountaine Pajot Elba 45, a cruising catamaran designed by renowned French naval architect Olivier Racoupeau. With an overall length of 13.45 metres and a beam of 7.55 metres, this model offers an excellent balance of volume, comfort, performance and onboard liveability.

The layout is particularly well suited to family cruising or trips with friends, featuring 4 double cabins including one crew cabin, 4 private bathrooms and 2 additional forward peak cabins, one of which is equipped with a private shower and toilet. The yacht can accommodate up to 10 berths while maintaining generous circulation areas and excellent storage capacity.

On board, the living spaces are spacious and well designed for enjoying both indoor and outdoor life. The saloon, cockpit, flybridge and forward areas offer multiple sunpads, seating areas and relaxation zones. The two forward relaxation nets further enhance the friendly and seaworthy character of this catamaran.

This Elba 45 offers a high level of autonomy, with a 12 V watermaker producing 105 L/h, a reverse-osmosis system for remineralized drinking water, 700 L fresh water capacity, a generator, solar panels providing full energy autonomy as announced, and reverse-cycle air conditioning in all cabins. Onboard comfort is further enhanced by Starlink high-speed satellite internet, one freezer, a two-drawer refrigerator, a cockpit refrigerator and a dishwasher.

The customized propulsion package is based on twin Yanmar 70 hp engines showing 760 hours, with a 470 L fuel capacity. The sail plan is complete, with 116 m² total sail area, a 70 m² mainsail, a 46 m² genoa / jib and a 140 m² gennaker, offering excellent cruising performance potential. Spacious, autonomous and very well equipped, this Fountaine Pajot Elba 45 is a strong opportunity for an owner looking for a modern, comfortable catamaran designed for extended stays on board.
