### Pardo 43 – 2023 | 360 Engine Hours

The Pardo 43 stands out as one of the most elegant and high-performing walkaround yachts in its class. This 2023 model, with only 360 engine hours, is presented in outstanding condition and benefits from a highly specified configuration, making it the ideal choice for fast, comfortable, and refined cruising.

Powered by twin Volvo Penta D6 480 HP engines, she delivers impressive performance on the water. Combined with the Volvo Interceptor system, joystick control, and autopilot, this setup ensures exceptional handling, efficiency, and ease of operation, whether cruising offshore or maneuvering in tight marinas.

True to the Pardo Yachts philosophy, the Pardo 43 features wide walkaround decks, a spacious and welcoming cockpit, and generous sunbathing areas. The electrically adjustable cockpit table, hydraulic swim platform, and hydraulic gangway enhance onboard comfort and practicality. Aft, the electric-opening tender garage beneath the sunpad maximizes space while preserving the yacht's sleek and minimalist profile. Carbon-fibre shade poles with sun awnings at both the bow and stern provide excellent protection from the sun, while underwater lights create a striking ambiance both at anchor and underway.

The yacht is exceptionally well equipped, featuring dual 16-inch multifunction displays, a chain counter, three refrigerators, an ice maker, an inverter, a premium sound system, and a 9 kW Kohler generator powering the air conditioning, ensuring a high level of comfort and autonomy on board.

Rarely available with such low engine hours and an extensive specification, this Pardo 43 represents an outstanding opportunity for buyers seeking a premium walkaround yacht that perfectly combines Italian design, outstanding performance, and exceptional comfort.

Available immediately for viewings and further information.
