Description

PRICE ON REQUEST Piloting the Cranchi E30 Endurance is a real pleasure. A tried and tested hull, efficient and precise. The vessel makes the best use of the available power, reaching a top speed of over 32 knots. What stands out most of all is the pleasant driving experience. The boat is reactive, prompt, and never nervous. It holds its line very well, and has a very tight turn radius. This is the benefit of having just one engine, and well designed waterlines. Information and photos are not binding.
