## Description

---

Discover the MV Marine 27 GT, a rare opportunity to acquire a high-end RIB.

Known for its Italian elegance, high-performance hull, and impeccable build quality, the 27 GT offers remarkable cruising comfort combined with total versatility.

This model is the bigger brother of the MV Marine 25 GT, measuring 35 cm longer and 12 cm wider. The MV's hull is constructed using a PVC sandwich core for the plating and hull reinforcements. This technology significantly reduces the boat's weight, enhances its performance, and lowers fuel consumption.

### Engine

Powered by a Suzuki 250 hp APX engine, this model guarantees power, reliability, and a smooth ride.

### Comfort

A 2-seater, center-mounted leaning post allows for 30 cm of clearance on either side of the console. Ample storage under the seats provides space for safety equipment as well as water toys or picnic gear.

### Performance

The MV 27 GT is one of the lightest RIBs in its class, offering a very pleasant boating experience with good acceleration and excellent seaworthiness.
