Description

CAP MED BOAT & YACHT CONSULTING is pleased to present this 2000 Sunseeker Superhawk 48, a prestigious open sports cruiser by Sunseeker International, lying in Cannes. At 14.78 metres with a 3.25 metre beam and CE category B certification (offshore), this Polish-flagged unit offers a genuinely sporty and elegant programme on the French Riviera.

Her major asset: a nearly new power package. The boat was completely repowered in 2019 with twin Volvo Penta D4-300 A-F engines of 300 hp (2017 engines) showing only 1,156 hours (May 2025), on Volvo DPH-A sterndrives with EVC electronic management. Sea trials validated 30.1 knots at 3,330 rpm with stabilised engine temperatures — factory-level performance, and major savings on future works.

The layout comprises a forward double cabin with king-size bed, hull portholes and wardrobe, a saloon with white leather seating enhanced by varnished mahogany woodwork, a fitted galley (pressurised water sink, 2-burner electric hob, refrigerator) and a bathroom with electric toilet, shower tray and mixer-tap basin.

Outside, the non-slip teak deck features fore and aft sunpads, caramel leather U-shaped cockpit seating, a navy blue bimini on stainless steel arches, a cockpit kitchenette with sink and refrigerator, and a teak bathing platform with retractable stainless ladder. Manoeuvring is made easy by the Sleipner bow thruster, the electric windlass controlled from helm and deck, and hydraulic trim tabs.

Equipment includes a Simrad autopilot repeater, Humminbird depth sounder, Navicom fixed VHF, Victron Energy charger, four batteries including two 2022 Optima, 220 V shore power, pressurised hot water and a Fusion sound system.

Repowered, surveyed and ready to cruise, this unit is a rare opportunity for lovers of prestigious sports opens with a clear history.
