The Intermare 43' is a well-designed, pleasant, well-built boat that allows serene navigation, giving comfort and safety. It is an excellent boat for sailing, but also for mooring.

The Intermare 43 has been successful for obvious reasons: it is a boat built in fiberglass with craftsmanship and good taste. This is a quality that sometimes seems a bit neglected in today's boats, where you only go in search of everything new.

My opinion as an expert and consultant: the Intermare 43' is an excellent boat to remember when looking for a solid boat that lasts a long time and gives satisfaction when sailing and mooring.
