Description

With this Hanse 320 built in 2010, you can expect a well thought-out and extremely well-maintained cruising yacht that combines sporty sailing characteristics with a high level of comfort.

Thanks to the popular self-tacking jib, all lines diverted to the cockpit and the modern Raymarine navigation package, the yacht is ideal for single-handed sailors, couples and families alike.

The yacht comes from the first owner, has been regularly serviced and always stored protected in a hall during the winter months.

Numerous investments in recent years ensure that the boat presents itself in a sail-ready and contemporary condition.

Particularly noteworthy are the new Elvstrøm mainsail (2024), the complete navigation electronics from Raymarine (2025) and the on-board batteries, which were renewed in 2024.

The Hanse 320 impresses with its simple and safe handling.

The bright and spacious interior offers a pleasant feeling of space and features the high-quality Hanse real wood conversion in Wenge.

The popular 2-cabin version offers a comfortable forward cabin as well as an exceptionally spacious aft cabin.

This Hanse 320 presents itself as an excellently maintained cruising yacht with extensive modernisations and a well thought-out single-handed concept.

The combination of solid sailing characteristics, high-quality equipment and numerous investments makes her an attractive choice for sailors who want to start the season immediately.

*we sell this beautiful Hanse 320 on behalf of a customer and are not liable for its condition in completeness.
