Description

Beige hull. Very good condition

Tender lift, Stabilizer. Bow table with sundeck.

N° 3 cabins with bathroom, crew cabin with bathroom.

The interiors are made of teak with boiserie covering all the walls.

The large living room consists of a living area designed to enjoy the spaces in total relaxation: on the right side there is a sofa with a central table and two armchairs. On the opposite side, however, two comfortable movable armchairs have been positioned with a game table that has the chessboard on one side and backgammon on the other side.

Spacious cabinet in the saloon, inside which there is a refrigerator with bottle service

Going up two steps, the bow saloon develops where on the left is the helm station with a low sofa and on the right the dining area with teak table that can accommodate up to eight people. In the middle of the saloon, two convenient exits on both sides allow you to reach the external walkway to access the stern and bow living areas, a typical solution for larger yachts.

Going below deck, on the right, is the guest cabin with twin beds and a bathroom with double access from the cabin and the corridor. In the bow is the VIP cabin with private bathroom. On the left, however, is the kitchen. From the galley it is possible to access the sailor's accommodation and then the engine room between the latter and the owner's cabin

The exteriors of the new Altura 690 are also characterized by large spaces: the aft cockpit houses a fixed teak table, while another large living area has been created in the bow. In the bow, a double sofa and a table have been designed next to two large sun decks, one of which also houses a pull-out umbrella that allows you to shelter from the sun during the hottest hours.

The stern platform of the Altura 690 is equipped with a new generation electro-hydraulic sliding device that allows the tender to be housed in the water while obtaining a large swim platform ideal for swimming.

Two sun decks have been positioned on the flying bridge, one very wide towards the stern and one towards the bow next to the helm station. L-shaped sofa, fixed table and fridge and grill area complete the fly.

.

Navigation equipment:

Radar Antenna, Electronic engine control, On-Board Computer, Tachometer, Hours Counter, Display, Chartplotter (Raymarine fly), Control panel.
