FUEL TANK CAPACITY (L) 90	GUESTS CRUISING 6	ENGINE MANUFACTURER Chris Craft V8 283	HORSE POWER 1 X 185 HP

Description

This Abbate Villa d'Este in the Super version was built in 1963 and represents one of the most famous examples of utility boats built by the shipyard of the same name on Lake Como.

The high construction quality in double layer of mahogany has nothing to envy to emblazoned shipyards such as Riva or Baglietto who at the time were already experimenting with the first constructions in sheets of marine plywood.

The boat has had only 2 owners during its long life.

The boat is in good general condition even if it needs some small interventions in the wooden parts.

The boat initially underwent a partial restoration in 2005 while in 2016 it was totally restored by an Italian shipyard specializing in the maintenance of vintage boats.

Therefore, the hull (bottom and sides) were completely redone.

The Chris-Craft engine mod. 283 is original and the matching number is correct.

Boat put up in dry place indoors during the winter period.

Only 6 examples of the Super version still exist.

More information available on request.

Navigation equipment:

Engine Measuring Instruments.

Staging and technical:

Headlights fixed on the stem, Directional Spotlight, Tow hook for water skiing, cradle, Fenders, Teak deck, Teak Cockpit, swimming ladder, Horn.
