YEAR 2007	LENGTH (M) 7.45	WIDTH (M) 2.92	CABINS 2
BATHROOMS 1	ENGINE MANUFACTURER V.M. Motori Spa MD 704 LS	ENGINE HOURS 850	HORSE POWER 2 X 170 HP

Description

The Acquamarina 7.50 Cabin, built by the Sea Gem shipyard in 2007, is one of those units that redefines the standard of habitability in its category. The fact that immediately catches the eye of the most demanding owner is the ratio between length and width: compared to 7.45 meters of overall length, the hull develops a maximum width of 2.92 meters, a measurement that is normally found on larger units. This design approach is not a simple technical number, but concretely translates into:

Above-average static and dynamic stability, perceptible both when sailing and during anchor stops;

Significantly larger cockpit and deck spaces, ideal for life on board with family or guests;

An unexpectedly generous interior volume of the cabin area for a boat of this length.

Focus on VM Motori Diesel Engine

The beating heart of this unit is represented by the twin-engine inboard diesel engine V.M. Motori S.p.A., model MD 704 LS, a combination that deserves a dedicated in-depth study for owners who are more attentive to the mechanical component:

The dual engine guarantees a higher level of nautical safety than single-engine solutions, ensuring manoeuvrability and retraction ability even in the event of failure of one of the two engines;

VM Motori mechanics have historically been appreciated in the panorama of Italian diesel engines for their solid construction and ease of maintenance, factors that translate into low running costs over time;

Diesel power, compared to its petrol counterparts, offers significantly lower consumption and a greater cruising range, a significant economic advantage for those who use the boat frequently;

The inboard (EB) installation also contributes to a lower centre of gravity and optimal weight distribution, which works in synergy with the aforementioned hull width to offer a particularly comfortable ride without excessive roll.

Equipment and Comfort

The on-board equipment includes:

Navigation and electronics: Garmin Map 520s GPS, compass, tiller angle and electric anchor winch, for effortless navigation and mooring management;

Deck: teak-covered stern platform, full cushions fore and stern, bow seat cover, electrically lifted engine compartment door for easy access to the engine room, bathing ladder and 6 fenders included in the equipment;

Outdoor living: Coolfreeze CF-80 outdoor fridge with protective canopy, external autoclave-assisted stern shower, and the complete canopy package for total cockpit closure - a solution that transforms the unit into a base for nautical camping;

Interior: separate bathroom with electric marine toilet, internal stove and sink, stereo system with speakers;

Systems: Mastervolt 12/50-3 professional battery charger for on-board electrical management.

Staging and technical:

Teak Cockpit, Shorepower connector, Electric Windlass.

Domestic Facilities onboard:

Electric Toilet.

Accessories notes:

Electronics

Garmin Map 520s GPS

Compass

Rudder angle

Electric anchor winch

Deck Set-up

Teak stern platform

Full cushions (bow and stern)

Bow seat cover

Engine compartment tailgate with electric lift

Swim ladder

N° 6 fenders

Comfort and Interior

Coolfreeze CF-80 outdoor fridge + dedicated canopy

External aft doc with autoclave

Complete cockpit closure canopies

Separate bathroom with electric marine toilet

Internal stove

Interior sink

Stereo system with speakers

Plant engineering

Mastervolt 12/50-3 Professional Battery Charger
