FUEL TANK CAPACITY (L) 2200	GUESTS CRUISING 16	CABINS 3	BATHROOMS 1
ENGINE MANUFACTURER Volvo Penta TAMD 122 P -B	ENGINE HOURS 1377	HORSE POWER 2 X 610 HP	

Description

The Princess 56 represents one of the most successful flybridges of the British shipyard, capable of combining construction quality, excellent seaworthiness and great sailing comfort. This 1998 example stands out for an increasingly rare feature on the market: it has had a single owner, who has maintained it carefully and continuously over the years.

The boat is in good general condition and has undergone major maintenance, including the refurbishment of the heat exchangers and the replacement of the seacocks in 2022, as well as the recent renewal of the safety certificate in July 2025. The two Volvo Penta TAMD 122P-Bs have only 1,370 hours of operation, testimony to a limited and always careful use.

Navigation is supported by a rich technical equipment that includes an 11 kW Kohler generator, bow thruster, autopilot, Furuno radar, double GPS plotter, AIS, two cameras in the engine room integrated into the instrumentation and an effective emergency system for emptying the engine room operated by the main engines.

The outdoor spaces offer everything you would expect from a flybridge of this category: large teak cockpit, flybridge equipped with barbecue and sink, electro-hydraulic gangway, integrated bathing platform and numerous amenities dedicated to outdoor living. Access to the flybridge is possible either via the external staircase from the cockpit or through the internal staircase from the saloon, ensuring practicality and comfort in every situation.

Interior description

The interiors of the Princess 56 are designed to offer bright, functional and particularly livable environments even during long stays on board. The layout includes three cabins and two bathrooms, as well as an independent crew cabin with two beds and a dedicated bathroom, an ideal configuration for both family cruising and for those who want to have crew on board.

The large saloon welcomes guests with well-distributed spaces and quality finishes, while the galley, completely separate, has a four-burner ceramic hob, electric oven, three refrigerators, washer-dryer and practical galley compartment that guarantees high autonomy while sailing.

Comfort is ensured by the air conditioning system with autonomous management of the cabins and reversible air conditioning, as well as the presence of hot water, TV, sound system and numerous 220V and 12V sockets. The two cameras installed in the engine room, which can be viewed directly on the plotters, further increase safety and control during navigation.

One of the strengths of the boat is the rationality of the layout, which allows the flybridge to be reached both through the internal and external staircase, offering a practical connection between the interiors and the spaces dedicated to outdoor life. A set of features that makes this Princess 56 a complete, elegant proposal perfectly suited to family or guest cruises.

Navigation equipment:

Rudder angle indicator, Radar Antenna, Electronic engine control, On-Board Computer, Tachometer, Chain counter, Hours Counter, chronometer, Display, Consumption monitor, Plotter with GPS antenna, Control panel, Co-pilot seat, Engine Measuring Instruments.

Staging and technical:

Fume/Gas Detector, Engine Alarm, Bilge Alarm, Alternator, Water pressure pump, Shore power cable, Deck Shower, Twin Steering, Electric Flaps, Tender Crane, Anchor Chain Washdown, Courtesy Lights, Battery Monitor, Fenders, Gangway, Platform, Waste Water Tank Drain Pump, Automatic Bilge Pump, Manual Bilge Pump, Deck Wash Pump, Teak deck, Entry door, Teak Cockpit, Shorepower connector, Water harbor connector system, Electronic instrumentation repeater, Rollbar, Electric Windlass, cockpit table, Horn, Stern Winches, Bow Winches.

Domestic Facilities onboard:

Warm Water, Hot Air, BBQ/Grill, Warm Water System (ELETTRICO), Inverter Air Conditioning, Waste Water Plant, Fuel Tank Indicator, Water Tank Meter, Waste Water Tank Meter, Engine oil pressure gauge, Engine temperature gauge, 12V Outlets, 220V Outlets, Black Water Tank, Water System, Video camera, Voltmeter, Electric Toilet.

Security equipment:

Barometer, Binoculars, Smoke buoy, First aid kit, Life Jackets, Safety equipment within 3 miles, Safety equipment within 6 miles, Safety equipment within 12 miles, Safety equipment within 50 miles, Emergency Handheld Fires, PFDs, Automatic Fire Extinguishing System, Fire Fighting Pump, Parachute flares with red light, Signal flares, Radar reflector, Life buoy.

Entertainment:

Speakers, Satellite TV antenna, Satellite Decoder, DTV, Home Theater, Radio AM/FM, Hi-Fi.

Kitchen and appliances:

Galley, Deck Refrigerator, Washer dryer, Dishwasher, Washer, Coffee Machine, Ceramic hot plate.

Upholstery:

Cushions, Stern Cushions, Bow Cushions, Fly Bridge Cushions, Cockpit Cushions, Mattresses, Blackout Curtains, Window Cover, Flybridge Cover, Instrument Cover, Seat Cover, Sunshade, Mosquito nets.
