ENGINE MANUFACTURER Suzuki DF300 APX	ENGINE HOURS 81	HORSE POWER 2 X 300 HP	

Description

Single owner since delivery, exceptional condition and extremely limited use. This Sealine C330v represents one of the best opportunities available on the market today for those who want a modern, elegant and practically like new boat.

The sale is motivated exclusively by the reduced use by the current owner, a factor that has allowed it to be preserved impeccably both from an aesthetic and functional point of view. Every detail reflects the constant attention paid to the maintenance and care of the boat.

The innovative 300 HP Suzuki DF300 APX 2 x engine offers brilliant performance, a top speed of about 40 knots and extremely smooth and quiet navigation. Thanks to the Suzuki electronic controls and the Suzuki Precision Maneuver Joystick, maneuvers in port are simple and precise even in the tightest spaces.

The cockpit is one of the strengths of the C330v: large, functional and perfectly integrated with the saloon through the large folding glass door and the folding kitchen window, creating a single open environment ideal for conviviality. The large electric sunroof, the integrated swim platform, the large walkways and the bow sundeck complete a deck designed to experience the sea in maximum comfort.

The Sealine build quality, the high-performance hull and the high brightness guaranteed by the large glass surfaces make this boat perfect for both day trips and multi-day cruises.

A boat ready to buoy, with no work to be carried out, ideal for an owner looking for reliability, build quality and conditions that are really difficult to find on the market.

INTERIOR DESCRIPTION

The interior of the Sealine C330v surprises with spaciousness, brightness and quality of finish, offering a level of comfort normally reserved for larger boats. The layout has been designed to take advantage of every available centimetre, creating elegant, functional and perfectly livable environments throughout the season. The helm station also benefits from the convenient side opening for mooring alone.

The entrance to the saloon is through the large opening in the cockpit, which eliminates the separation between interior and exterior and gives an extraordinary feeling of continuity. The dinette, embellished with an adjustable table and comfortable seats upholstered in light leather, is surrounded by large glass surfaces that flood the rooms with natural light.

The galley, located aft, is fully equipped with a gas hob, oven, refrigerator, stainless steel sink and numerous storage units. The practical window that can be opened towards the cockpit facilitates outdoor service and makes the environment even more convivial.

The sleeping area houses two independent cabins. In the bow is the spacious owner's cabin with a central double bed, wardrobes and ample storage space. Amidships there is the second double cabin that can be converted into a double cabin, particularly large and bright thanks to the considerable width of the hull.

The bathroom, finished with light wood furniture and a countertop sink, has a marine toilet and separate shower, ensuring maximum comfort during your stay on board.

The photographs testify to the truly excellent state of conservation of the interiors: carpentry, cladding, galley, cabins and bathroom are practically like new, confirming the limited use of the boat and the attention with which it has always been maintained.

Navigation equipment:

Rudder angle indicator, Electronic engine control, On-Board Computer, Chain counter, Hours Counter, chronometer, Display (Raymarine), GPS (Raymarine), Joystick (SUZUKY), Log (Raymarine), Navigation lights (Raymarine), Consumption monitor, Autopilot (Raymarine), Chartplotter (Raymarine), Plotter with GPS antenna (Raymarine), Control panel (Raymarine), Co-pilot seat, Engine Measuring Instruments.
