Description

UNIQUE OPPORTUNITY – PROJECT FOR 24-METER MAXI SAILING YACHT IN KEVLAR

For sale hull and superstructure of a prestigious 24-meter sailing yacht, ideal for those who want to build a completely customized boat without facing the time and costs of building a new hull.

The boat has been completely emptied and is ready to be fitted out according to your needs. It is an exceptional base, already compartmentalized, which allows you to develop a tailor-made project, both for private use and for high-level charter activities.

The boat has been completely dismantled and the only fiberglass structure remains with all the internal divisions already carried out.

This is a huge advantage for those who want to complete the boat according to their own standards, installing systems, engines, furnishings and finishes without having to intervene on demolition or structural changes.

It is, in fact, a project ready for the set-up phase.

Drawings and renderings for a final project can be provided on request, in order to be able to use the boat for charter activities. Trade-ins are accepted.

It can be transported to another destination, or it can be set up on site.

Staging and technical:

2 Anchor, 7 Winch (6 grossi, 1 piccolo).

Accessories notes:

mast with spreaders, boom, axle with propellers, generator 380/220, rudder, 2 helm stations, bulb, new inverter
