Description

This Bavaria 44 Cruiser is one of the most popular sailing cruisers in its category, thanks to a design that combines comfort, reliability and excellent sailing skills. Designed for long cruises with family or friends, it offers generous space both outside and below deck, ensuring high livability in every situation.

The cockpit is large and well organized, with a double rudder that ensures precise handling and easy access to the aft platform. In the center there is a large drop-down table, surrounded by two long seats that can comfortably accommodate up to 10 people, creating an ideal environment for lunches, dinners and moments of relaxation at anchor. The boat is complete with well-positioned sail rigging, winches and sheet clips to facilitate maneuvers with a small crew.

The boat is equipped with a 1,000 W Lofrans Cobra electric winch, black water tank, bivalent hot water boiler and VIM air conditioning system, which guarantees comfort both in summer and in mid-season. The refrigerator has recently been overhauled and is perfectly efficient.

The engine has been completely overhauled and now has about 400 hours of operation, offering reliability and peace of mind while sailing. The teak is in good condition, while the upholstery is in a fair state and the interiors are well preserved. Instrumentation includes Simrad RD68 Class-D VHF/DSC and Lowrance Hook Reveal 7S chartplotter, ensuring safe and complete navigation. A boat ready to take on long cruises with the right balance of performance, comfort and functionality.

Interior description

The interior of the Bavaria 44 Cruiser has been designed to offer spacious, bright and particularly functional environments, ideal for both family cruising and long-distance sailing. The layout includes a large central dinette, flanked by a fully equipped galley, designed to ensure practicality even while sailing.

The sleeping area consists of four cabins, capable of offering a high number of beds without sacrificing comfort. The cabins have bedside tables, USB sockets and courtesy lights, details that make your stay on board a pleasant one. One of the cabins is equipped with bunk beds, an ideal solution for accommodating crew or children, while the spaces are completed by two bathrooms.

The VIM air conditioning system helps to maintain a pleasant climate in all interiors, while the bivalent hot water boiler ensures hot water both when sailing and when the boat is connected to the quay. The refrigerator has recently been overhauled.

The interior finishes are in good condition, with well-maintained and ready-to-use rooms. The excellent distribution of space, combined with the Bavaria construction quality, makes this boat an ideal solution for those who want to tackle multi-day cruises with maximum comfort, functionality and livability on board.
