## Description

---

Italian elegance, large volumes and excellent performance

The Ferretti Yachts 850 is a flybridge yacht of about 26 meters that combines dynamic exterior lines, generous environments and a high level of comfort.

Built in 2019, this model represents one of the most popular proposals in the Ferretti Yachts range in terms of construction quality, distribution of space and livability on board.

The exterior profile, characterized by strong lines and large glass surfaces, gives the yacht a modern and elegant look. The large windows allow natural light to enter the interior and ensure a constant visual relationship with the sea.

### INTERIOR

The main deck offers a large panoramic saloon, a separate dining area and a distribution of spaces designed to ensure comfort, privacy and ease of movement.

The environment is bright and welcoming, with refined materials, refined finishes and a typically Italian contemporary design.

The galley and crew area are organized to allow a discreet and efficient service, keeping the areas dedicated to guests separate, as far as possible.

### LOWER DECK

The sleeping area is located entirely on the lower deck and can accommodate up to eight guests in four en-suite cabins.

The owner's cabin is located amidships and develops at full beam. The large side windows, the wardrobe area, the numerous storage spaces and the private bathroom create a private and comfortable environment.

Guest accommodation also includes VIP cabins and guest cabins, offering a configuration suitable for both family use and staying on board with friends.

The crew area is separate and includes two dedicated cabins.

### OUTDOOR SPACES

The flybridge is one of the main elements of the Ferretti Yachts 850.

Its size allows you to create different areas dedicated to navigation, conviviality and relaxation. The configuration can include a second helm station, dining area, wet bar, sofas and sunbathing surfaces.

The aft cockpit offers a protected and comfortable space for outdoor lunches and convivial moments, with direct connection to the main salon.

At the bow there is an additional outdoor area dedicated to relaxation, ideal during navigation or stops at anchor.

The bathing platform facilitates access to the sea and the handling of the tender and water toys, depending on the configuration of the boat.

#### NAVIGATION AND COMFORT

The Ferretti Yachts 850 has been designed to offer high-performance, stable and comfortable sailing.

The planing hull, the large size of the hull and the on-board systems allow you to tackle medium and long-range cruises with high levels of safety and well-being.

The double helm station allows the yacht to be steered from both the internal bridge and the flybridge.

#### KEY FEATURES

- Year of construction: 2019
- Overall length: approx. 26 meters
- Maximum width: approx. 6.28 meters
- Four guest cabins on the lower deck
- Four private bathrooms
- Full-beam owner's cabin amidships
- Accommodation for up to eight guests
- Two crew cabins
- Large flybridge
- Sunbathing and living area in the bow
- Generous bathing platform
- Double helm station

The Ferretti Yachts 850 is the ideal choice for an owner looking for an elegant, spacious and versatile yacht, capable of offering comfort during long stays on board and performance suitable for sailing in the Mediterranean.

A proposal of great interest in the flybridge yacht segment of about 26 meters.
