Description

Elegant, capable and meticulously maintained, this beautiful Ferretti 620 presents a rare opportunity in the sub-20 metre yacht market. Built by the renowned Italian shipyard Ferretti and designed by Zuccon International Project, she combines timeless styling, exceptional build quality and outstanding seakeeping abilities. With an overall length of 19.48 metres and a beam of 5.10 metres, she remains one of the most sought-after models in her class. An annual berth lease may also be available on the French Riviera, in either the Alpes-Maritimes (06) or Var (83) regions.

This yacht has benefited from professional care and regular maintenance under the supervision of a captain. Continuously upgraded and carefully monitored throughout ownership, she is presented in remarkable condition and requires no major investment. Reliability, comfort and operational readiness have always been priorities, making this Ferretti 620 a true turnkey yacht ready for immediate cruising.

The interior layout offers generous accommodation volumes, featuring three guest cabins and three en-suite bathrooms, providing excellent comfort for family and guests alike. Crew quarters comprise two separate cabins and two bathrooms, ensuring privacy and efficient service on board. The warm and inviting interior showcases the refined craftsmanship and elegant finishes for which Ferretti is internationally renowned.

Outside, spacious entertaining and relaxation areas make the most of the Mediterranean lifestyle. The teak cockpit was renewed five years ago, while the swim platform, extensive sunbathing areas with new exterior cushions for 2026, and multiple social spaces create the perfect setting for extended cruises and onboard entertaining. The yacht is also fitted with a recently replaced hydraulic gangway and a full set of recently renewed exterior covers.

Powered by twin MAN 1,200 HP diesel engines, she delivers impressive performance with a comfortable cruising speed of 26 knots and a top speed of approximately 36 knots. The engines have logged around 2,450 running hours and have benefited from regular documented maintenance.

Exceptionally well specified, this Ferretti 620 is equipped with a Seakeeper Zero-Speed gyroscopic stabiliser with approximately 2,140 operating hours, providing outstanding comfort both underway and at anchor. Navigation electronics have been upgraded, including a new GPS plotter installed in 2024. Additional equipment includes reverse-cycle air conditioning throughout, watermaker, bow thruster, 20 kW generator with approximately 4,100 hours, autopilot, radar, AIS, VHF and a comprehensive range of onboard amenities including dishwasher, washing machine, multiple refrigerators, freezer and a complete entertainment system.

Over recent years, significant maintenance and upgrade works have been carried out to maintain the yacht to the highest standards. These include replacement of the windlass in 2023, installation of a new hydraulic gangway in 2023, renewal of exterior covers, replacement of the ice maker, installation of a new inverter charger, inspection of the battery bank together with a new generator battery, servicing of the air-conditioning system, full Seakeeper maintenance and a complete overhaul of the watermaker in 2024.

The yacht is offered with a 4-person tender powered by a Torqeedo electric outboard, providing a practical and environmentally friendly solution for

shore transfers and coastal exploration.

It is rare to find a Ferretti 620 presented in such well-preserved condition and with such a comprehensive specification. A genuine turnkey yacht, ready for immediate use, ideal for a discerning owner seeking the perfect balance of elegance, comfort, reliability and performance.

Viewings and sea trials available 7 days a week with ABYS Yachting, official Ferretti Group dealer.
