Description

BAYLINER TROPHY 2103 CENTER CONSOLE — 2006 — "TONNERRE 2"

CAP MED BOAT & YACHT CONSULTING presents this 2006 Bayliner Trophy 2103 Center Console, named "TONNERRE 2", lying in Le Lavandou, France. At 6.48 metres with a 2.59-metre beam, CE category C, this American centre console is a proven fishing and family platform, prized for its seaworthy hull and fully walkaround cockpit.

Power comes from a Mercury Verado 4-stroke outboard, with 166 kW installed power (approx. 225 hp) as per the registration document, paired with a stainless steering wheel and Mercury controls at the helm.

The fishing spirit is everywhere: aluminium T-top with canvas, leaning post with backrest and four stainless rod holders, two more rod holders on the transom, and a lockable centre console protected by a windshield. The helm gathers a Lowrance GPS/fishfinder combo, engine gauges and the electrical panel.

Comfort is well catered for: large forward sunpad with cushions, bow seat cushion, side bolsters, stainless grab rails, 12 V socket, telescopic bathing ladder on the transom platform and a stainless anchor on the bow roller.

Versatile, simple and economical to run, this Trophy 2103 is offered at EUR 29,900 (TTC), visible in Le Lavandou. Contact CAP MED Boat & Yacht Consulting to arrange a viewing.
