Description

BLUEGAME BG74 – BETTER THAN NEW

Delivered and fully commissioned in October 2025, this outstanding Bluegame BG74 represents a unique opportunity to acquire one of the finest and most comprehensively equipped examples ever built.

With only 150 engine hours, this yacht presents in virtually new condition and benefits from ongoing manufacturer warranties on all major systems commissioned in October 2025. For a buyer wishing to avoid the delays, uncertainty and substantial additional costs associated with a new build, this BG74 offers immediate enjoyment without compromise.

The BG74 perfectly embodies Bluegame's revolutionary approach to yacht design, combining the volume and comfort of a much larger yacht with the elegance, efficiency and seaworthiness for which the brand has become internationally renowned. Her striking profile, expansive outdoor spaces and seamless connection to the sea create a yachting experience unlike any other vessel in her class.

Finished with a timeless white hull and elegant beige upholstery, this yacht has been specified to an exceptional standard, with over €1,000,000 invested in optional equipment and upgrades. Every detail has been carefully selected to create a yacht capable of extended cruising in absolute luxury and comfort.

The accommodation layout offers three beautifully appointed guest cabins together with dedicated crew quarters for two, ensuring privacy and practicality for both owners and guests. Large panoramic windows flood the interior with natural light while maintaining a constant visual connection with the surrounding seascape.

Powered by Volvo Penta IPS propulsion, the yacht delivers effortless handling, remarkable fuel efficiency and exceptional manoeuvrability. Docking is further simplified through Garmin Dock Assist, Garmin 360° Surround View cameras and three independent docking stations, providing confidence even in the most demanding marina environments.

Comfort at sea and at anchor is exceptional thanks to the Humphree fin stabilisation system with both underway and zero-speed functionality, complemented by a Seakeeper stabiliser installation. Together, these systems provide an extraordinarily stable platform in all conditions.

The impressive specification includes Starlink satellite internet, AIS Class A & B, Garmin MOB safety bracelets, premium Fusion audio system, Bauer diving compressor, water softener, additional stainless-steel swim ladder, comprehensive sun awning package with carbon fibre poles and a fully equipped medical kit for extended cruising.

A brand-new Williams 345 SportJet tender is included in the sale, perfectly complementing the yacht's innovative beach club and waterside lifestyle concept.

Hull cleaning and IPS PropSpeed treatment were completed in June 2026, further reflecting the meticulous level of care dedicated to this vessel.

Presented in immaculate condition, fully equipped, extensively optioned and available immediately, this Bluegame BG74 stands apart from every comparable yacht currently available on the market.

For the discerning owner seeking the very best of contemporary Italian yacht design, without waiting for a new build, this is a truly exceptional opportunity.
