Description

Discover the epitome of waterfront living with the Bluefield Floating Home M250. This innovative floating home combines modern design with eco-friendly features, offering a unique and sustainable way to enjoy life on the water. With spacious interiors, panoramic windows, and luxurious amenities, the M250 provides all the comforts of a traditional home while allowing you to immerse yourself in nature. Perfect for serene retreats or vibrant gatherings, the Bluefield Floating Home M250 is your gateway to a tranquil, yet dynamic lifestyle. Experience the ultimate in floating luxury and redefine your living experience today.The Marina Series has a more boat-like aestheticand has been designed specifically to fit within an existing marina berth.These houseboats have a number of otherfeatures that make them suitable for marina living, such as an outboard motor bracket, composite decking, and catamaran pontoons made of GRP (Glass Reinforced Plastic) for stability in the water. The aluminium cladding (available in a selection of colours and colour combinations), as well as the stainless steel handrails, help to reduce weight and improve durability.Entering the houseboat through floor to ceilingsliding patio doors,leads into an open-plan living, kitchen, and dining area. The abundance of windows on all sides floods this space with natural light, creating a bright and inviting atmosphere. The full equippedkitchen comes in a choice of door style, colour and worktop finish, and includes essential appliances such as a combi oven, hob, and fridge. There is additional storage space provided by a generously sized walk incupboard. The bathroom is equipped with toilet, wash handbasin, walk-in shower, and towel radiator.Both the front and rear balconies offer plenty of space for outdoor
