## Description

XBOAT ref :5679.Very beautiful racing/cruising sailboat, well maintained. Well equipped.

Racing/cruising sailboat with an elegant interior, in monolithic polyester, closed-cell foam and epoxy resin (not very sensitive to osmosis), carbon mast and boom, built by the Dehler shipyard in 2008.

One of the last units built by the Dehler shipyard before its purchase by Hans.

A yacht that makes a difference: the famous German manufacturer is launching a model that combines all the advantages of an authentic Dehler with a range of real innovations. The Dehler 44 seduces with its unparalleled performance under sail, its extreme safety, a multitude of refined technical details and its exceptional construction quality. Its teak deck, its elegant design, outside and inside, both a powerful regatta sailboat and a well-appointed cruiser: a unique achievement, worth discovering!

This unit has always been very well maintained, including dry storage in winter until 2015. Its first owner used it to race during participation in several Fastnets. He specially equipped it for the trip before leaving France in 2015: new rigging, addition of a staysail stay, watermaker, fuel cell... The current owner has hosted regattas in French Polynesia, notably the Tahiti Pearl Regatta , and used it for family and friends cruises in the Leeward Islands and the Tuamotus.

Boat located in French Polynesia Papeetisé. More details and pictures on [xboat.uk](http://xboat.uk)
