formosa Kelly peterson 46

105 000 € + VAT

Description

The Kelly Peterson 46 is a center-cockpit cutter which still impresses by its elegance. It is designed in a way that the cockpit isn't raised and the overall lines of the hull at deck level remain unbroken. Peterson succeeded to mix the traditional and modern lines to have an amazing classic-looking sailboat. This model has been built by Formasa Yachts in 1981 and has been professionally rebuilt in 2017. All plumbing including tanks, toilets, hoses and thru hull fittings have been replaced. Also the entire electrical system has been renewed, the engine has been rebuilt and is showing only 900 hours. She received a new davits, electronics, sails, appliances, dinghy, outboard and much more. It's a perfect boat for those who like to sail with classic style. Contact us for more details.
