custom Brooks 62

399 000 USD + VAT

Description

The Brooks 62 has been specially designed and built to work efficiently for day charter in the Caribbean. This model and also its sister ships have proven themselves successful over all these years. It has the capacity to seat 40 passengers and can carry even up to 65. This light-weighted catamaran moves very efficiently under engine and also under sail. The cockpit offers a large bar area while the forward deck provides lots of areas for sunbathing. Brooks created a day charter boat which appears attractive and welcoming and which approved itself as a safe and reliable working boat.
