Description

The Pardo 50 is an excellent compromise between performance and comfort, thanks to a deep V hull with variable geometry, 16° aft and over 50° in the bow sections that give it excellent seakeeping and at the same time perfect maneuverability, to glide safely and quickly.

The specimen in question is in perfect condition, like new, used very little and always put back in winter inside the shed.

Official Volvo services always carried out with regular maintenance from the Volvo program.

The boat is managed with an exclusive mandate.

The photo shoot was done in October 2023
