saxdor 270 gto

## Description

Saxdor 270 GTO was designed using the Saxdor signature, the light and soft-riding twin-stepped hull. The Saxdor 270 GTO delivers speed performance and fuel efficiency well-known from the earlier models. Very deep V entry of the inverted bow reduces external impact, improving overall boat stability and enhancing the driving experience. Light and strong construction, built using vacuum infusion technique, gives you a watercraft that is trailable, and easy to launch and recover. The 270 GTO is the ultimate choice for sun lovers. With twin sunbeds – one in the front and one in the aft – you'll have more than enough room under the sun to kick back and relax whenever needed. Once you're done, the aft sunbed can be put back together and serve you as a dining settee.
