## Description

Menorquins are boats designed to sail efficiently and quietly, allowing you to experience the sea in a unique, comfortable and fun way. The semi-displacement hull that characterizes all Menorquins offers an extraordinary width of the boat, ensuring maximum stability regardless of the sea conditions, while its very shallow draft allows you to explore even the smallest bays and inlets. This living and sailing comfort is hard to find in other yachts of similar length. This boat, a boat, is no exception, with the agility of a boat no longer registered and the livability of a 12-meter will give you unforgettable seasons. The first and only owner, new on the market and ready to go, it is a boat to be seen without delay. Price plus commission
